

A full range of construction services. Built from the ground up.

Repcon delivers timely, innovative construction solutions that optimize cost savings and give you greater control over your project.

For over 20 years, Repcon has been executing both small and large capital construction projects, and we've emerged as one of the best in the business. We've worked on new construction, revamps, retrofits, expansions, debottlenecking, plant relocations, and small capital projects, and we've helped our customers save time and money.

Count on REPCON for:

- Unmatched industry experience
- Outstanding safety record
- Highly trained and experienced supervision
- Skilled craft workers
- Unparalleled safety personnel

Repcon's core services:

- New construction
- Expansions
- Debottlenecking
- Revamps
- Unit relocation
- Small and large capital projects

The Repcon difference:

- Unmatched industry experience
- Outstanding safety record
- Complete PPE
- Experienced, highly trained personnel
- Numerous references

Improved cost savings and control

From estimating and budgeting to subcontractor management, Repcon's long list of construction services helps you optimize cost savings and implement greater control over your projects.

Custom services, custom pricing

From the minute we begin to evaluate the scope of your project, the Repcon team is looking to find the solution that works best for you. Our construction teams are experienced veterans and can handle your entire project on a lump sum or time-and-material basis, whichever works best for you.

Unmatched quality

With over 30 years in the refining and chemical industry, Repcon has continuously provided the market with quality products and workmanship, due in large part to our commitment to hiring quality personnel and adherence to our established Quality System. Repcon is one of few turnaround and construction contractors that maintains a Quality System that is designed toward the requirements of the ISO-9001 standard.
